IN WOMAN'S WORLD

SUGGESTIONS FOR THE HOUSEWIFE.

Never stir a cake after final beating. Beating motion should always be last used.

It is said that if a little borax is put in the water it will remove fruit stains from the hands.

A crust of bread put into the water in which greens are boiled will absorb all the objectionable rankness of flavor.

The rollers of a clothes wringer may be easily and effectively cleaned by rubbing them with a cloth which has been dipped in coal oil.

In order to be sure that the coconut for pies and candy is perfectly fresh it is well to buy the whole fruit and shred it in the meat chopper.

It is said that if an onion is cut into small pieces and placed about a room it will absorb many disagreeable odors, including fresh paint and turpentine.

A few economical housewives have tried grinding their tea leaves like coffee, and they declare that the result is excellent, only about half the usual quantity being used. Of course, the tea strainer must be as fine as can be bought.

In making new pillows have the feathers first inclosed in a bag of cheesecloth, or thin muslin. Then at any time the ticking may be removed for washing and even the feathers may be washed in the inner bag without flying all over the house.

Lace window curtains should always be soaked for an hour in cold water, to which a little borax has been added, before being put into warm suds. This gets out the smoky smell that is sometimes so noticeable in curtains that have been used in a town.

To do away with mice, a mixture of equal parts of flour and plaster of paris is said to be excellent. No moisture is applied to the powders, but all food is put away and the mixture left on a plate where the mice will get it. After one repast they return no more.

To whiten your doorstep put half a pound of glue size in a saucepan, add a pint and a half of water, and slowly dissolve on the stove. When quite melted add one pound of powdered

whiting, stirring it in gradually. Apply with a stiff brush, and if too hard add more water.

For a mixed fruit sorbet make a strip that spins a light thread with a pound of sugar and a pint of water and chill it. When ready to freeze add two cupsful of currant juice, half a cupful of orange juice, a pineapple shredded finely and a bottle of mineral water. Freeze to a mush.

Fine lingerie waists do not require boiling unless they are very soiled. If they are allowed to soak in warm suds overnight they will not need rubbing on the board. Do not put the waists through the wringer, but squeeze them carefully by hand. Rinse at least twice before putting them in the bluing water. Little starch should be used if the waists are very fine. Hang in the sun to bleach.

Don't be afraid to scrub the plants brought in for the winter. With a brush, water, soap and an infusion of tobacco every leaf and stem should be scrubbed to remove insects. The bathroom spray is excellent to use in rinsing, which should be thorough. A frequent drenching and occasional meals of flower food will make up to the plants for the loss of outdoor life and they will repay with vigorous growth and bloom during the winter months.

The first bride to wear a white silk wedding gown was Mary Queen of Scots, who introduced the fashion in 1558, when she married Francis II of France. Her dress was of white brocade, but over it she wore a court mantle of Persian blue velvet, which was held up by two pages. For some time the white wedding dress was favored only by brides of high rank, and it was not till the end of the seventeenth century that it became general at weddings. At the close of the middle ages scarlet was worn by brides on their wedding day, and scarlet is still the bridal color in China.

ABOUT COLLARS.

Amid all the lovely collars of lace, ribbon and tinsel there looms up a new style which is most attractive. The collars are linen affairs worked with groups of miniature dots, placed in squares of four dots, sixteen, or in triangle or cross effects. With the collars will be found the linen tie to match. It is either a single or double bow, the edges buttonhole stitched with the same material as the dots, and also finished with small dots. These collars are dotted with red, brown, white, yellow; in fact, every color imaginable. Many of the little bows are shaped like pretty leaves, while others are print with only the bow ends notched and whipped with thread, but always the collar and bow will be seen to match.

WIN FAST GAME

IN NINTH INNING

The lads of the C. A. C. came through with a victory yesterday, which made their chances in the league look some better. They took a 3 to 2 game from the Twilights, and it was one of the best contests ever seen on that field.

TENNIS AT PUUNENE

The final match in the first tournament for the cups offered by Dr. F. E. Sawyer, for handicap men's doubles was played on the Puunene courts last Saturday afternoon. H. E. Savage and F. F. Baldwin of Puunene being matched against D. C. Lindsey and Rev. E. B. Turner of Paia. This match was the best three out of five sets and Messrs. Lindsey and Turner won by the following score 6-4, 6-3, 6-4, and they have possession of the cups until the next tournament is played. The content for these cups is open to all residents of Maui each man to choose his own partner, and the teams are handicapped by a committee from the Puunene Athletic Association, under whose auspices the tournaments are held. The cups are to be played for until one team has won them three times, when they become the property of the members of the winning team.

In the tournament just finished there have been many interesting matches and the interest in Tennis on this island has been greatly stimulated by Dr. Sawyer's generosity and public spirit in offering the cups.
